Abstract

This paper shows paper.

Keywords: alfa, beta, gamma, delta, five, six.

1 Introduction

Application of paper. Paper paper.

Paper paper paper paper paper paper paper paper paper paper paper paper. Paper paper paper paper paper paper see Smith [1]. In Figure 1. Paper paper in Equation (1) the paper paper paper paper paper paper paper paper paper paper paper paper.

Paper paper paper paper paper paper paper paper paper paper paper paper. Paper paper paper paper paper paper. In Figure 1. Paper paper

paper paper paper paper paper paper paper paper paper paper paper paper paper paper paper paper paper paper in Equation (1) the paper paper paper paper paper paper paper paper paper paper paper paper.

2 Methods

Paper paper. Paper paper paper paper paper paper paper paper paper paper paper paper.

$$\delta = \frac{1}{n} \ln \frac{y_1(t)}{y_1(t+nT)} \tag{1}$$

Paper paper.

Figure 1: A white dog in the snow.
