This conference would not have been possible without the assistance of many people and their organisation. In particular, we should like to thank the sponsors: The Greek Association for Computational Mechanics (GRACM); The Greek Ministry of Culture; The General Secretariat of Research and Technology of Greece; The Tourist Organisation of Greece; The National Technical University of Athens; The University of Patras; The Democritus University of Thrace; The Evgenidis Foundation; and UNISYS Hellas.

The assistance of: the members of the Structural Engineering Computational Technology Research Group at Heriot-Watt University, Edinburgh; and the staff of the Institute of Structural Analysis and Aseismic Research, National Technical University of Athens is gratefully acknowledged. In particular, we wish to thank Dr Asad I Khan for his help during the early stages of the preparation of this conference.

We should particularly like to thank Professor Dimitri Beskos, President of the GRACM, for all the help he has given us during the planning and organisation of the conference.

We also wish to thank all at Civil-Comp Press for their help and perserverance in the realisation of this conference in particular: Maisie Sales and Szandra Köves. Finally we should both like to thank our research assistants in Edinburgh and Athens for their help and assistance during the editing and preparation of these conference proceedings. Without their help during the months leading up to this conference life would have been considerably more difficult and duller. In particular we should mention Janos Sziveri, Biao Cheng, Péter Iványi, Yannis Tsompanakis, Prodromos Psaropoulos and Nick Lagaros.
